30 Days to Sell David and Charles

What if the real key to a richer and more fulfilling career was not to create and scale a new start-up, but rather, to be able to work for yourself, determine your own hours, and become a (highly profitable) and sustainable company of one? Suppose the better--and smarter--solution is simply to remain small? This book explains how to do just that. Company of One is a refreshingly new approach centered on staying small and avoiding growth, for any size business. Not as a freelancer who only gets paid on a per piece basis, and not as an entrepreneurial start-up that wants to scale as soon as possible, but as a small business that is deliberately committed to staying that way. By staying small, one can have freedom to pursue more meaningful pleasures in life, and avoid the headaches that result from dealing with employees, long meetings, or worrying about expansion. Company of One introduces this unique business strategy and explains how to make it work for you, including how to generate cash flow on an ongoing basis. Paul Jarvis left the corporate world when he realized that working in a high-pressure, high profile world was not his idea of success. Instead, he now works for himself out of his home on a small, lush island off of Vancouver, and lives a much more rewarding and productive life. He no longer has to contend with an environment that constantly demands more productivity, more output, and more growth. In Company of One, Jarvis explains how you can find the right pathway to do the same, including planning how to set up your shop, determining your desired revenues, dealing with unexpected crises, keeping your key clients happy, and of course, doing all of this on your own.

Here's The Most Comprehensive Learning Resource For Thinking Positive Thinking - You have probably had someone tell you to think positive when you were in a trying situation. That is because the power of positive thinking is something that is a widely held belief. Most people easily accept that when you give off positive energy, you can infect others with that positive energy and that they will return that energy to you. It is basically the idea that what you put out there will come back to you. Positive influences are all around us. They exist because people love to feel good. People prefer the positive to the negative. You can likely relate to this. You would probably rather be around someone who is upbeat and full of energy than someone who is depressed and moping around. People see that thinking positive and having a positive attitude can play a large role in their life. Positive thinking can be very powerful and by putting it to work in your life; you can reap the positive benefits. Creative thinking is the ability to let your mind create thoughts that are often different and unusual. Creative thinking revolves around the idea of thinking beyond the scope of the norm. It is all about being able to think outside the box and be original in your thought process

Creative thinking is something you can train your mind to do. Some people are actually born with creative thinking abilities, while others have to really work to let themselves be a creative thinker. Innovation Thinking - However, it is possible for anyone to become a great creative thinker whether they were naturally born or they have to work at it. The 'power of innovation' is a phrase that sounds like a corporate tactic or slogan, a secret talent worthy of only the rich and powerful. Actually, the power of innovation is an innate quality that we all possess. If you tend to marvel at the creativity of others, you may be surprised that you can create and innovate too. Everyone is born with creativity. Just watch a group of preschoolers with a box of crayons. The potential isn't limited to a chosen few; it's shared by all. Think of how long it took to learn to ride a bike, drive a car, or learn to stop making the same mistakes.

In the not too distant future, an ancient bacterium is discovered by a group of scientists in the depths of the Amazon River basin. Found to have miraculous healing powers on the human brain, it fills the research team, led by noted Neurologist Dr. Lemuel Sanderson, with tremendous hope. That is until something goes terribly wrong. An unknown force is creating an army of undead bent on the destruction of the human race. Dr. Sanderson, with the assistance of an eccentric billionaire, sets out to track down one of his former test subjects. One he firmly believes holds the key to putting an end to this nightmare. Major Charles "Butch" Bradley has been entrusted with the evacuation of Washington D.C. Along the way he rescues a group of college students, a mother and her two children, and a stubborn outdoorsman with a penchant for blowing things up. He is now responsible for their safety as he and his men navigate this dangerous new world, looking for a safe haven. As events unfold, the Major and Dr. Sanderson find themselves on a collision course whose outcome may determine the fate of humanity.
