What is a winning strategy? Why do some people, families, and organizations take a dive, some merely survive, while others thrive? What leads up to a disaster or collapse? Why do some squander success, while others continue to elevate? How do we build a solid foundation that assures solid authentic growth? Rich Habits Rich Life is the result of research that has spanned over 25 years at the intersection of sociology and economics, and specifically explores what behaviors result in disaster, recovery, and prosperity.

For lovers of Alexander McCall Smith, Nicholas Drayson introduces the charming Mr Malik and the East African Ornithological Society in *A Guide to the Birds of East Africa*.

Reserved, honourable Mr Malik. You wouldn't notice him in a Nairobi street - except, perhaps, to comment on his carefully sculpted comb-over - but beneath his

unprepossessing exterior lie a warm heart and a secret passion. Not even his closest friends know it, but Mr Malik is head-over-heels in love with the leader of the local Tuesday-morning bird walk, Rose Mbikwa. Little can he imagine the hurdles that lie before him. Even as he plucks up the courage to ask for Rose's hand, thieves, potential kidnappers and corrupt officials, not to mention one particularly determined love rival, seem destined to thwart Mr Malik's chances. Will an Indian gentleman in the heart of Africa be defeated by the many obstacles that stand between him and his heart's desire? Or will honour and decency prevail? 'A funny, ingenious and touching love story'

A juicy true story about sex, drugs, money, power, high heels, and overcoming adversity. Tamara Mellon used her business savvy, creative eye, and flair for design to build Jimmy Choo into a premier name in global fashion. But despite her eventual fame and fortune, Mellon didn't have an easy road to success. Her seemingly glamorous beginnings were marked by a tumultuous family life,

battles with anxiety and depression, and a stint in rehab. Now Mellon shares the whole larger-than-life story—from her time as a young editor at Vogue to her partnership with cobbler Jimmy Choo to her very public relationships. In creating the shoes that became a fixture on Sex and the City and red carpets around the world, Mellon relied on her own impeccable sense of what her customers wanted. What she didn't know at the time was that success would come at a high price: struggles with an obstinate business partner, a conniving first CEO, a turbulent marriage, and a mother who tried to steal her hard-earned wealth.

Most parents will do just about anything to secure happy lives and bright futures for their kids. Add in competition with other

parents and near-constant pressure, their drive to give their kids the best of everything can backfire, setting back the child and the household finances. Brett Graff, "The Home Economist," exposes how overspending can harm children by setting back intellect and encouraging narcissism, depression and unhealthy or unsafe habits. By unearthing research on pricey baby gear, oversized houses, so-called "educational" toys and after-school lessons, expensive sports equipment and private coaching, even certain organic products and unregulated "natural" medicines—she even has eye-opening findings on private schools versus public

schools—Graff proves that we can spend too much getting our kids ahead and wind up instead setting them back. *Not Buying It* proves that sound, rational decision-making about spending is far more beneficial for our kids than purchases made out of fear, pressure and confusion. With Graff's guidance, you'll confidently create the financial strategy that's best for your family, not the one pushed by marketers or practiced by your neighbors. *Not Buying It* is your blueprint for emotional and financial freedom, and the stability your children deserve.

Among the rows and rows of little trees growing on Brown's Christmas Tree Farm, there is one tree that is not like the others. This

Since its first publication in 1990, the book has become a Christmas favourite. The new edition features a sparkly foil cover, redesigned artwork and an extended page count. Upon the Gardens of Epicurus Simon and Schuster

Sir William Temple, diplomat, statesman, and writer, retired to his garden in the 1680s and wrote what has become one of the key texts, not only of gardening, but also of the English aesthetic. It was he who introduced the idea of the charm of irregularity, and who

gave it the allegedly Chinese name sharawaggi. The English style of landscape gardening can be traced in a direct line to this essay, which has not been in print for over 95 years.

Official List of Section 13(f) Securities Pro Lights & Staging News World-famous, Estonian-born composer Arvo Pärt is a unique voice in today's music. From his own extensive

experience of working with Pärt, Paul Hillier here provides the first full-length study of the composer's music. The music of the Estonian-born composer Arvo Pärt is a unique and powerful voice in the contemporary world. Using a tonal idiom based on a mixture of scales and triads, Pärt created a style that he calls 'tintinnabuli'. Listening to it, one is reminded of the passionate tranquillity of some Russian icon, or of certain memorable scenes in the films of Andrei Tarkovsky. In this book, the first full-length study of Pärt, Paul Hillier explores the tintinnabuli works in considerable depth. He also examines the music of Pärt's

earlier, somewhat neglected serial period, and charts the composer's steady evolution towards the 'abstract tonality' of his later years. In addition, a biographical chapter and discussion of topics such as Russian Orthodox spirituality, minimalism, and the influence of early music, combine to make this a substantial introduction to P--auml-
