This book is intended to provide teachers and researchers with a wide range of

ideas from researchers working to integrate the new technology of Augmented Reality into educational settings and processes.

Electronic Test Instruments Springer Nature

Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But KASHER IN THE RYE is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like

an abduction. Only not officially. She stole them away from their father and they moved to Oakland , California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

Case Closed Springer Nature

Serious weight loss should be closely monitored by medical professionals.

Medical research shows that joining a medical professional team produces greater and longer lasting results. We make sure you have a thorough Medical understanding of how your weight and body composition are affecting your health.

In the last decade our mobile phones have been infiltrated by angry birds, our computers by leagues of legends and our social networks by pleas for help down on the farm. As digital games have become networked, mobile and casual

they have become a pervasive cultural form. Based on original empirical work, including interviews with workers, virtual ethnographies in online games and analysis of industry related documents, *Global Games* provides a political, economic and sociological analysis of the growth and restructuring of the digital games industry over the past decade. Situating the games industry as both cultural and creative and examining the relative growth of console, PC, online and mobile, Aphra Kerr analyses the core production logics in the industry, and the expansion of circulation processes as game services have developed. In an industry dominated by North American and Japanese companies, Kerr explores the recent success of companies from China and

Europe, and the emergent spatial politics as countries, cities, companies and communities compete to reshape digital games in the networked age.

The Sweetness of Herbert Rand McNally

Japan's greatest seer, the blind prophet Hinoto, has foretold the end of the world. At the center of her prophecy is a young man named Kamui Shiro, who possesses startling psychic powers. Although Kamui's future seems to have been predetermined from his birth, he has a choice--save the earth, or destroy it.

The integration of the 3rd dimension in the production of spatial representation is largely recognized as a valuable approach to comprehend our reality, that is 3D. During the last decade developments in 3D Geoinformation (GI) system have made substantial progress. We are about to have a more complete spatial model and understanding of our planet in different scales. Hence, various communities and cities offer 3D landscape and 3D city models as valuable source and instrument for sustainable management of rural and urban resources. Also municipal utilities, real estate companies benefit from recent developments related to 3D

applications. In order to present recent developments and to discuss future trends, academics and practitioners met at the 7th International Workshop on 3D Geoinformation. This book comprises a selection of evaluated, high quality papers that were presented at this workshop in May 2012. The topics focus explicitly on the last achievements (methods, algorithms, models, systems) with respect to 3D Geoinformation requirements. The book is aimed at decision makers and experts as well at students interested in the 3D component of geographical information science including GI engineers, computer scientists, photogrammetrists, land surveyors, urban planners, and mapping specialists.

How to Grow When Markets Don't Grand Central Publishing

After a stalker's attack, rock star Goldy Crossland flees L.A. for her secluded lake house in Northern Washington. Retired from the music business, she hopes to avoid both the press and her psychotic fan. But obscurity leaves her restless, and when a mysterious--and disturbingly handsome--new neighbor moves in, she can't resist spying. Pete Bayer is undeniably attractive, but Goldy quickly

realizes there's something strange going on in the log house across the bay. Is he a member of the paparazzi? Or a much more sinister threat? Despite her suspicions, Goldy can't deny her fascination with him. When the press discovers her hideout, it's Pete who offers an escape route, but it comes with a price. Unwillingly drawn into his dangerous world, Goldy soon learns the reason behind Pete's secrecy--and her

crush on her charming neighbor takes a deadly turn.

Dust & Data Taylor & Francis
