Philip and Alex's Guide to Web Publishing Vault Inc. How YOU can fix the most common problems with a Whirlpool or Kenmore washing machine,

including belt drive and direct drive models. [The Mom's Guide to Growing Your Family Green](#) EB Publishing Why Americans do not divide neatly into red and blue or right and left but form coalitions across party lines on

hot-button issues ranging from immigration to same-sex marriage. On any given night cable TV news will tell us how polarized American politics is: Republicans are from Mars, Democrats are from Canada. But in fact, writes Peter Wenz in *Beyond Red and Blue*, Americans do not divide neatly into two ideological camps of red/blue, Republican/Democrat, right/left. In real life, as Wenz shows, different ideologies can converge on certain issues; people from the right and left can support the same policy for different reasons. Thus, for example, libertarian-leaning Republicans can oppose the Patriot Act's encroachment on personal freedom and

social conservatives can support gay marriage on the grounds that it strengthens the institution of marriage. Wenz maps out twelve political philosophies—ranging from theocracy and free-market conservatism to feminism and cosmopolitanism—on which Americans draw when taking political positions. He then turns his focus to some of America's most controversial issues and shows how ideologically diverse coalitions can emerge on such hot-button topics as extending life by artificial means, the war on drugs, the war on terrorism, affirmative action, abortion, same-sex marriage, health care, immigration, and

globalization. Awareness of these twelve political philosophies, Wenz argues, can help activists enlist allies, citizens better understand politics and elections, and all of us define our own political identities.

“Here, in the land of conspicuous consumption, marriage isn’t considered a lifelong commitment. It’s the ultimate accessory.” -from *The Dallas Women’s Guide to Gold-Digging with Pride* Jennifer Barton’s life has veered 180 degrees. A transplanted New Yorker now in a Lone Star state of mind, she’s ditched her urban hipster look for the waxed, Botoxed, and blond glow of the

Dallas women she now walks among and mingles with. Jenny’s mission: to be in “tall cotton,” which in Texan husband-hunting terms means sporting a major rock on your finger and seeing the prenup torn up before you walk down the aisle. But learning the local lingo is only the tip of the cactus for Jenny, who is used to picking men based on attraction and long-term compatibility, not net assets. No matter that in Dallas, a husband is “like a Hermès bag or a Chanel coat, a good investment that will mature over time. If he no longer fits, you can trade up to a more luxurious model.” To Aimee, Jenny’s pretty-as-a-beauty queen roommate (and an expert gold-digger),

marrying for material worth is gospel—she’s already successfully managed her first divorce and is on the lookout for husband number two. Jenny has laughed off Aimee’s ideas on flirting and courting (“Never directly engage a man you’re interested in”), but after catching her boyfriend cheating and listening to her mother’s constant laments over her lack of grandchildren, Jenny reconsiders Aimee’s businesslike approach to marriage: plan, strategize, conquer. Under Aimee’s guidance, Jenny finds herself grocery shopping in stilettos, attending skeet shoots and rattlesnake hunts, and traversing the ultimate husband-hunting ground—a Baptist wedding. But in

between secretly decoding her targets’ e-mail passwords and breaking into potential mates’ houses to figure out what their interests are, Jenny wonders if love ever enters into the deal. Welcome to Dallas, where the higher the hair the closer to God. Grab the steer by the horns and sharpen your nails, J. C. Conklin’s hilariously funny debut novel will have you going Texas wild!
