Associated Motor Cycles (AMC) produced some of the most iconic British bikes of the 1940s and 1950s. Badged as either AJS or Matchless, the range covered everything from plodding ride-to-work four-stroke singles, weekend racers, two-stroke motocrossers and full-blown Grand Prix contenders. Illustrated with over 200 photographs, this comprehensive account looks at the history and development of the single and twin-cylinder ranges; the racing bikes; technical details of all major models, and owning and

riding AJS and Matchless bikes today. An invaluable resource for the AMC enthusiast and motorcycle historians, superbly illustrated with over 200 colour and black & white photographs.

Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series Ant Anstead Master Mechanic, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World

Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the

car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.' Content

includes: Introduction The history of specials  
Planning Donor car  
Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox  
Bodywork Braking system  
Cockpit Wiring  
Preparation and painting
